

AYUSH PATIL

Navi Mumbai, India | ayushpatil2229@gmail.com | +91-7208788035 | [GitHub](#) | [LinkedIn](#)

EDUCATION

University of Mumbai

2022 - 2026

Bachelor of Engineering in Computer Engineering

CGPA: 8.15 / 10.0

PROFESSIONAL EXPERIENCE

Indian Oil (Information System Department) – Full Stack Intern

- Develop a live enterprise application e-Pravesh – (Data Centre) at Indian Oil Corporation Limited using Spring Boot, React, TypeScript, and PostgreSQL..
- Implemented secure cookie-based authentication with role-based access control for Admin, Employee, Engineer and Visitor modules.
- Designed interactive dashboards with real-time analytics, engineer management, reporting and automated punch-in/punch-out functionality.

PROJECT EXPERIENCE

Prakriti Identification [\[GitHub\]](#)

August 2024 - February 2025

- Developed a machine learning based system to predict an individuals dosha (vata,pita or kapha) through question answer.
- Provide personalized wellness advice, including yoga video suggestions and detailed Ayurvedic lifestyle recommendations based on tracked daily habits like sleep duration, water intake, etc.
- Integrated a chatbot to handle user queries and enhance the overall Ayurvedic guidance experience.

Crop Disease Detection [\[GitHub\]](#)

January 2025 – May 2025

- Designed and implement a deep learning model to detect crop disease from images using CNN architecture.
- Collected and preprocessed agricultural datasets, optimizing the model for high accuracy and real-time predictions.
- Utilized Python, TensorFlow, and OpenCV to enable early disease detection and support preventive agriculture measures.

Modern Real Estate [\[GitHub\]](#)

August 2025 - September 2025

- Developed a real estate website and mobile app that allows users to shortlist and like homes, providing a seamless and user-friendly property exploration experience.
- Integrated interactive map locations for each listing to enhance navigation and improve property discovery.
- Implemented a real-time chat feature for direct communication with agents, enhancing user engagement and streamlining the home-buying process.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript.
- **Frameworks and Libraries:** Spring Boot, Hibernate, Node.js, React.js, Express.js, Next.js.
- **Machine Learning & AI:** Scikit-learn, TensorFlow/Keras, Deep Learning (CNN), OpenCV, Computer Vision, LLM Integration.
- **Technologies:** Git, GitHub, REST APIs, Cloud Deployment, Postman, Jupyter Notebook.
- **Databases & Query Languages:** SQL, MySQL, MongoDB, PostgreSQL.

CERTIFICATIONS

- **Tata Consultancy Services (TCS)** – Internship Simulation : Created data visualizations and answered client questions to support executive decision-making.
- Participated in multiple hackathons, developing innovative technical solutions.
- **LeetCode** – Earned 50 Days Badge and solved 200+ problems in Data Structures and Algorithms, strengthening problem-solving and coding skills.
- Certified in the C programming language.
